Speakers / Instructors

Center for Spine Surgery and Pain Therapy
Head: Priv.-Doz. Dr. med. habil. Sebastian Ruetten

ST. ELISABETH GRUPPE 
KATHOLISCHE KLINIKEN RHEIN-RUHR

Center for Orthopedics and Traumatology
of the St. Elisabeth Group – Catholic Hospitals Rhein-Ruhr
St. Anna Hospital Herne/Marien Hospital Herne University Hospital/Marien Hospital Witten
Director: Prof. Dr. med. Georgios Godolias

Dr. med. Martin Komp
Dr. med. Semih Oezdemir

Center for Spine Surgery and Pain Therapy, Center for Orthopedics and Traumatology of the St. Elisabeth Group - Catholic Hospitals Rhein-Ruhr, St. Anna Hospital Herne/Marien Hospital Herne University Hospital/Marien Hospital Witten, Germany

Priv.-Doz. Dr. med. habil. Sebastian Ruetten

Head of the
Center for Spine Surgery and Pain Therapy, Center for Orthopedics and Traumatology of the St. Elisabeth Group - Catholic Hospitals Rhein-Ruhr, St. Anna Hospital Herne/Marien Hospital Herne University Hospital/Marien Hospital Witten, Germany

Prof. Dr. med. Timm J. Filler

Director of the
Institute for Anatomy I
Section for Clinical Anatomy,
Heinrich-Heine-University Düsseldorf, Germany

International Instructors

**International
Training Course:**

INTENSIVE Training Course
for Full-endoscopic
Operations of the
Lumbar Spine

Organizers:

Center for Spine Surgery and Pain Therapy
Center for Orthopedics and Traumatology
of the St. Elisabeth Group - Catholic Hospitals Rhein-Ruhr
St. Anna Hospital Herne/Marien Hospital Herne University Hospital/
Marien Hospital Witten
and
Section for Clinical Anatomy,
Heinrich-Heine-University Düsseldorf

September 25th – 27th 2017

Germany – Herne / Düsseldorf

Invitation

Dear Colleagues,

The therapy of degenerative diseases of the spine carries with it medical and socio-economic problems. After conservative measures are exhausted and where there are exacerbated pain conditions or neurological deficits, a surgical procedure may become necessary. Despite good therapy results, consecutive damage may ensue due to traumatization. It is therefore of particular importance to optimise these procedures on a continuous basis. The goal we should strive for is the minimization of surgically induced traumatization and negative long-term consequences, taking into account the existing quality standard.

Minimally invasive techniques can reduce tissue damage and its consequences. Endoscopic operations demonstrate advantages which have raised these procedures to the standard in various medical areas. On the lumbar spine, as a result of the development of the interlaminar and lateral transforaminal access, the spinal canal with its adjoining structures can be reached full-endoscopically. Technical problems have been solved by special rodless endoscopes with a large intra-endoscopic working channel and appropriate instruments. Working under a continuous stream of liquid offers options which have proved their worth in arthroscopic surgery through long experience. In the area of the cervical spine anterior or posterior access is possible.

During the training course we intend, in a reciprocal exchange with yourselves, to try to demonstrate the current and future options as well as problems, risks and complications of full-endoscopic operations in the area of the spine. In an environment of practical demonstration where you perform access routines on cadavers yourself, typical practical experience for your expected learning curve or future clinical application can be gathered. Under intensive tuition by instructors, each participant will perform the various access routines on a practical level and run through special working procedures. For this reason the number of participants is limited. Nevertheless, the training course cannot replace the acquisition of the necessary extensive knowledge.

Dr. med.
Martin Komp

Dr. med.
Semih Oezdemir

Priv.-Doz. Dr. med. habil.
Sebastian Ruetten

Program

1st / 3rd day Monday / Wednesday at Section for Clinical Anatomy, Heinrich-Heine-University Düsseldorf

11:00 h **Welcome and introduction**
(3rd day: 09:00 h)

INTENSIVE Cadaver Workshop – Part I:

11:15 h Practical exercises for participants
**Full-endoscopic Operations of the Lumbar Spine:
Extraforaminal / transforaminal access**
International Instructors

14:00 h **Lunch**

INTENSIVE Cadaver Workshop – Part II:

14:20 h Practical exercises for participants
**Full-endoscopic Operations of the Lumbar Spine:
Interlaminar access**
International Instructors

16:45 h **Final discussion**

2nd day Tuesday at St. Anna Hospital, Herne

08:00 h **Registration**

08:15 h **Welcome and introduction**
M. Komp, S. Oezdemir, S. Ruetten

08:45 h Clinical consultation
Full-endoscopic Operation of the Lumbar Spine
M. Komp, S. Oezdemir, S. Ruetten

15:00 h **Final discussion**

General notes

Course Location:

1st / 3rd day (Monday / Wednesday):

Section for Clinical Anatomy,
Heinrich-Heine-University Düsseldorf
Universitätsstrasse 1,
Building 22.05
40225 Düsseldorf

Finden Sie uns auf
Google Maps

2nd day (Tuesday):

Center for Spine Surgery and Pain Therapy,
Center for Orthopaedics and Traumatology
of the St. Elisabeth Group -
Catholic Hospitals Rhein-Ruhr,
St. Anna Hospital Herne
Hospitalstraße 19,
44649 Herne, Germany

Finden Sie uns auf
Google Maps

Number of participants:

9 participants

Course Language:

English

Course Fee:

EUR 1.200,- (plus VAT)

CME Certification:

Applied for CME credit points.
